

The 100% Renewable Energy Task Force
Will Meet Remotely on Monday, January 25 at 7 PM

The Agenda:

The Task Force will be reviewing the 2018 and 2019 (pre-pandemic) electricity usage data for each of Temple's municipal buildings, as well as estimating potential usage changes from electricity upgrades in some buildings, as part of the assessment for each building's present KW needs and possible future needs.

This is in preparation for designing potential solar array options capable of providing sufficient electricity for each building.

The Task Force's plan is to have several solar array design options ready to be selected and implemented after: 1) sufficient financial assistance will facilitate their cost-effectiveness, 2) they receive Select Board approval, 3) are presented at a public hearing and 4) are offered in a warrant article approved by our citizens at a Town Meeting.

We will also discuss updates to the NH Community Power process and recent legislative decisions relevant for our work.

Renewable Energy Task Force Committee Meeting

When Mon Jan 25, 2021 7pm – 9pm Eastern Time - New York
