

The June Meeting of the Renewable Energy Task Force
Will Be Held in the Annex at 7 PM on June 21

The Agenda will include:

An update from Chairman Rob Wills on his discussions with Eversource regarding the transmission costs and various issues involved in a potential solar installation on a portion of the town-owned land beyond the ballpark and school parking lot that would use the 3-way transmission lines in that vicinity on Rte. 45/

A discussion about the connections we are intending to make with the Con Comm, the Land Use Committee, the Planning Board, the CAC and the Budget Committee, as recommended at our last meeting by Christine Robidoux who was visiting from the Community Action Committee. .

A report from the Task Force members about their visit to the proposed solar PV site area.

And a report on the one-pager description of what our Task Force has been doing and our plans. And a report on a possible PowerPoint.
