

Temple's 100% Renewable Energy Task Force
Will Hold a Remote Meeting on April 19 at 7 PM

The Agenda Will Include:

Approving the minutes of the March 29 meeting.

Introducing a guest, the newly appointed Clean Energy NH Local Solutions Program Coordinator, Josh Singer. He had reached out to our Task Force chairman, Rob Wills, to learn more about what our Task Force is doing. Following their conversation, Rob invited him to join our April 19 meeting.

Mr. Singer agreed to attend the meeting and inform the Task Force about the financing opportunities available from federal and state governments designed to assist municipalities with renewable energy projects. That will be for both low interest loans and for grants.

We will discuss the impacts of the financial options we've learned about on the time frame for our Task Force recommendations for potential renewable energy installations.

We will discuss any alterations that might be needed for our upcoming presentation at the Land Use Committee's hearing on April 21. We are planning to propose that the town reserve a portion of land near the Elementary School ball field for a future installation of a 25 – 50 kW solar array.
