

The Renewable Energy Task Force Will Meet on
March 23 at 7 PM in the Annex

The Agenda:

This meeting will be a planning session to review our plans for 2022.

That will include carving out time for preparations for one or more hearings to invite public input as we introduce our chosen option for transforming Temple's municipal energy to

renewable energy, our given task. And it will include a discussion of our preparations for a Warrant Article for the 2023 Town Meeting seeking approval for a local solar installation to

provide that energy.
