

Approved Minutes for the April 19, 2023 Meeting of the Renewable Energy Task Force

- The meeting was called to order at 7 PM
- Attending were Rob Wills, Deb Deleso, Thom Whitcomb and Bev Edwards (via zoom)
- Keith Charlton provided training to the committee for the equipment that enables people holding meetings to broadcast the meeting via zoom.
- Tom provided information regarding the community power potential offerings that the town of Wilton is sharing with their residents. We discussed the possibility of providing the same or similar options for our Temple residents.
- We discussed next steps:
 - Finish materials necessary to send out RFPs for the town array. We think we may be ready once we create a site plan at the location we think is most amenable for the array. Rob volunteered to do the site plan.
 - Send RFP to vendors
 - Use RFP materials and responses to determine viable federal or state funding options.
 - Town forums to discuss proposals and our options
- The scheduled presenter, John Kondos from Clean Energy NH was on the agenda to discuss his role as a circuit rider for our region but he had to cancel. Rob will work with him to reschedule for a future meeting.
- The meeting adjourned at 8:20PM

Respectfully submitted,

Bev Edwards
